**I. Summary of Office Action**

On October 26, 2005, the Examiner mailed a non-final office action in relation to the application identified above. The Examiner acknowledged Applicant's election without traverse in the reply filed on September 1, 2005, but noted that new method Claims 13 and 14 will not be examined because they are not directed to the elected group for the apparatus defined in Claims 1-10, and separable and distinct from the latter. The Examiner objected to the abstract under MPEP 608.01(b) because phrases which can be implied, such as "is disclosed" and "Also disclosed" have been used. The Examiner also objected to specification because of the absence of "brief description" for Figure 6 in the drawing sheet.

The Examiner rejected Claims 1-5 under 35 U.S.C. 102(b) as being anticipated by US Patent number 6,332,247 issued to Hsieh ("Hsieh reference"). The Examiner further rejected Claims 1-3, 5, 6, 8 and 9 under 35 U.S.C. 102(b) as being anticipated by US Patent number
